

The **S**peech and **L**anguage
Therapist (**SLT**) will ask about
your swallowing.

The **SLT** will watch you eat and
drink.

The **SLT** may touch your neck
as you swallow.

The **SLT** may listen to your
swallow using a stethoscope.

The **SLT** will check if eating and
drinking is difficult for you.

The **SLT** will give advice about how
to eat and drink safely

You may need to see the **SLT** again
if your swallow changes.

The **SLT** will write a report.

It will be sent to you and your
doctor.

The **SLT** will discharge you once
this is done.

Eating Drinking and Swallowing

Learning Disability Health
Services help you with eating,
drinking and swallowing
