Freedom of Information Request – Ref: FOI 024-1819

Thank you for your recent Freedom of Information request. I am writing to confirm that the Trust has now finished its search for the information you requested.

Unfortunately, the Trust is unable to respond to your request in full. The Trust estimates that the work involved in collating the data in order to respond would considerably exceed the 18 hours limit, specified in Section 12 of the Freedom of Information Act and therefore, exceeds the appropriate limit of £450.

However, the Trust is able to provide you with the attached information in response to Question 1 only. Please note the original spreadsheet included some deaths, in error which were not concluded to be suicide. These have been removed in the updated list.

1. Please update the details in FOI 080KD-1718 to present day and also include details for inquests that are still in progress.
We have not included inquests that are still in progress as we have no way of knowing at this stage how these will be determined.

Please identify any deaths that occurred whilst the Trust were acting as commissioners of care (eg out of county placements)

There have been no suicides determined (to date) for out of county patients during this time.

Please supply the MH diagnosis of service users who have died through suicide/suspected suicide whilst under your Trust, applying the following criteria:

- *Concluded inquests from January 2017 to date.*
- *The primary and secondary (if applicable) MH diagnosis of the service user at the time of their death.*
- *To include all inquest verdicts, i.e. suicide, open, narrative and other.*

Please see attached spreadsheet.

2. Please identify for each death listed in the updated spreadsheet referred to above :
 - a) the Consultant acting as Responsible Clinician at the time of death; and
 - b) Consultants involved with each patient in the 6 months prior to death (Please highlight any involvement that was cover for less than 1 working week)
 - c) Any consultants involved with the respective patients but who were absent from work or away from normal place of duty (eg sickness or training) for more than 1 working week during the 6 months prior to each death.”

Should you have any queries in relation to our response in this letter, please do not hesitate to contact me. If you are unhappy with the response you have received in relation to your request and wish to ask us to review our response, you should write to:-

Anna Hilditch
Assistant Trust Secretary,
2gether NHS Foundation Trust

E-mail: anna.hilditch@nhs.net

If you are not content with the outcome of any review, you may apply directly to the Information Commissioner's Office (ICO) for further advice/guidance. Generally, the ICO will not consider your case unless you have exhausted your enquiries with the Trust which should include considering the use of the Trust's formal complaints procedure. The ICO can be contacted at: The Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF.

Yours sincerely,

Lisa Evans
