Car Parking spaces					Does your Trust apply any criteria to the issuing of Staff Permits?		What staff parking charges do you apply at your sites?	Do you have ANPR coverage at any of your car parks?			Does your Trust ever grant a relaxation of parking, such as non-peak hours e.g. night time?		How many staff does your Trust employ?		Estates Return Information Collection (ERIC) asks each trust what their average fee charged per hour. What methodology/logic does your Trust apply to the ERIC question S09_06: Average fee charged per hour for staff parking?		
Staff	Patient/Visitor	Disabled	Other	Total	Yes/No	Not Applicable	Not Applicable	Yes	No	Partial	N/A	Yes/No	Not Applicable	Total Staff	WTE	Not applicable	
If so, please supply the details of this criteria and any scoring system that it accompanies. (freetext).								If so, please type details of times/restrictions below. (freetext).									
621 spaces - includes Staff and Patient/Visitor without distinction																	2164
Notes	Please only include Trust figures, no need to break down to site level.				This is criteria that allows/limits a permit to be issued, such as travel time, job role etc. Please include as much detail as possible, and supply any policy or procedural document laying out your criteria.		Please list the different charges and who these apply to. E.g. Charged according to salary: <£21,000 - £10 P/M £21,001 - £40,000 - £15 P/M >£40,001 - £20 P/M	Please select only one of the above and type in a capital 'P', which we create a tick (✓)			Total includes all staff on ESR and does not include temporary or contracted staff. WTE is likely to be a different figure to the total number of individual staff.		e.g. Average working days per month = 21. Average fee per month is £15 (£10+£15+£20=£45 / 3 = £15) £15 (monthly fee) / 21 (average work days P/M) = £0.71 (P/D) £0.71 / 12 (hours (ERIC suggestion)) = £0.06 P/H Or Standard fee (for all staff) is £18 P/M £18 / 20 (average working days P/M) = £0.86 £0.86 / 9 hours (average time on site for a 7.5 working day) = £0.10 P/H
